(1) Elaborados por el Bureau of Labor Statistics de los Estados Unidos. Los que aparecen en la presente entrega, corresponden a la nueva base adoptada por la mencionada oficina (ver el Federal Reserve Bulletin, marzo de 1952, página 311) y reemplazan por tanto a los que se venían insertando con base en

1926. (2) Incluye otros índices. (3) Esta relación resulta de dividir el índice total de precios de víveres al por mayor en el país (40 artículos con 57 variedades), por el índice de alimentos elaborados en los Estados Unidos, previo ajuste de las bases. r = Revisado, (...) = Pendientes de recibir datos.

(1) Datos del Departamento Administrativo Nacional de Estadística. A partir de noviembre de 1955 se utilizan los nuevos índices con base en el período julio de 1954 a junio de 1955, los cuales tienen el nombre de "Índice de precios al consumidor". Para efectos de comparación, seguiremos con los antiguos haciéndolos variar de acuerdo con el movimiento que presentan los nuevos. Dentro de la reciente investigación, el combustible

hace parte de la vivienda, no siendo posible continuar su serie. (2) Estos índices corresponden a la nueva investigación realizada en 1953, y que cubre las ciudades de: Bogotá, Barranquilla, Bucaramanga, Cali, Manizales, Medellín y Pasto, como también el "Índice Nacional". Las ciudades que no aparecen en esta página y la siguiente, pueden consultarse en el capítulo de "Las economías seccionales".

(1) Para el cálculo de los índices de precios y del volumen de transacciones, se han tenido en cuenta las principales especies de ganados que usualmente y a través de 21 años (1934-1955) se han negociado en la feria. Dentro de estas no aparecen las

vacas flacas de Bolívar y los toros, clases que en los primeros años tuvieron muy pequeña y poco frecuente demanda. Los datos totales de mayo de 1956 son: 25.238 cabezas vendidas por valor de \$ 9.722.393.
