(1) Para el cálculo de los índices de precios y del volumen de transacciones, se han tenido en cuenta las principales especies de ganados que usualmente y a través de 20 años (1934-1954), se han negociado en la feria. Dentro de éstas no aparecen las

vacas flacas de Bolívar y los toros, clases que en los primeros años tuvieron muy pequeña y poco frecuente demanda. Los datos totales de julio de 1955 son: 19.367 cabezas vendidas por un valor de \$ 8.809.554.
